### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Election/Restrictions***

1. Claims 12-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected embodiment of the invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 4/18/07.

### ***Claim Objections***

2. Claims 11 and 12 are objected to because of the following informalities: The preamble of the claim indicates the invention is "A fastener" while the body of the claim positively recites scope of invention to include the "bag" and its "lid" by limitations such as "an engaging piece fixed on a lid portion of a bag" and "a latch member fixed on the main body portion of the bag" whereby the claim language is not consistent. The preamble should be amended as "A fastener mounted on a bag" for example, to be consistent with the scope of claim presented for examination. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 3676

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 11 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Pat. No. 1,702,621 to Stelljes in view of U.S. Pat. Application Publication No. 2003/0090114 to Kang.

Stelljes '621 discloses Applicant's claim limitations including : an "engaging piece" – 15, "fixed on a lid" – 11,10 as shown in Fig 1, a "latch mechanism" – particularly including 26, "fixed on a main body portion of the bag" – 14,10. Stelljes '621 doesn't disclose ring portion 15 to be "clad with a synthetic resin" but Kang '114 discloses it is well known in the art of latches to do so. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide part 15 of Stelljes '621 with a synthetic resin as taught by Kang '114 in order damp noise as well known in the art.
